New MoneyWise Programs Announced

Urban Seeds is excited to launch it's Fall programming series in partnership with the One Less Foundation based in Germantown. Like Urban Seeds, One Less has a mission of bringing economic empowerment and self-sufficiency to communities and has a long track record of bringing quality instruction to classrooms and churches area-wide.

You may recall completing a programming survey a few weeks back—thank you! The results are in, and we have used this valuable information we need to make sure our programs are relevant to and convenient for YOU.

Be on the lookout for information in the coming weeks for opportunities to sign up for classes on Credit Repair, Budgeting, Identity Theft and other topics coming to an Urban Seeds church near you!

Best of all, church sponsorship has allowed you to attend this workshops for FREE!
