

Habitat for Humanity and Thrivent Faith Builds

Enabling lives full of meaning and gratitude

See the miracle of your ministry in action

Habitat for Humanity and Thrivent Faith Builds brings the local Christian community together to raise roofs, walls, funds and prayers to build a house in partnership with a family in your community.

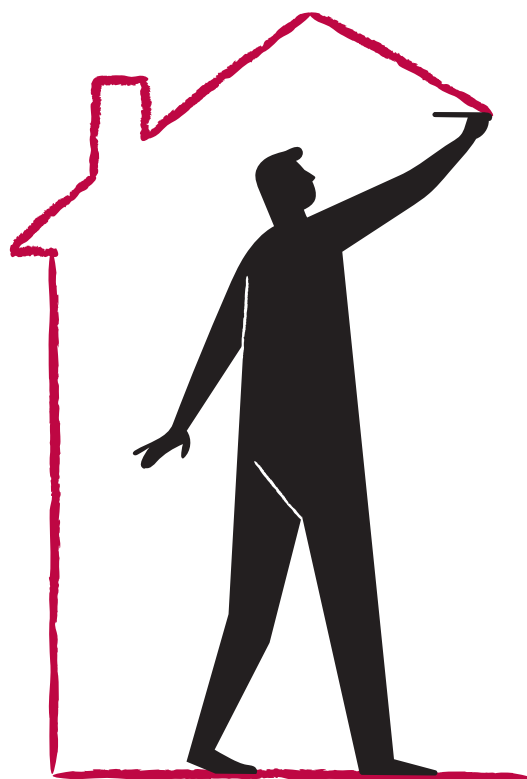

It's an opportunity to live out your ministry, engage your church members, and see the miracle that occurs when God touches the hearts of new homeowners and the volunteers who work alongside them.

Join us for a life-changing experience!

Since 2005, Habitat and Thrivent have partnered to help make affordable housing and better communities a reality for families, like Tia's. We invite your church to be part of this Faith Builds.

“I know that God is sending people my way to be a blessing to me and my family.”

—Tia R.

Habitat and Thrivent Faith Builds Process

Faith Builds depends on a community coming together to make a difference in the lives of a local family. Here's how you and your church can get involved.

Multiple churches and Christian organizations partner together with Habitat and Thrivent

The local Christian community comes together to raise walls, funds and prayers to build a house in partnership with a family in your community. Faith Builds is a concrete way to put your faith into action and see tangible results.

As a part of Faith Builds, your church or organization commits to:

- Help financially with the build through the Generosity Challenge (see next step).
- Generously donate volunteer time, helping with construction and nonconstruction activities.
- Pray for the community and homeowner family.

But that's just the beginning. Faith Builds also:

- Builds community within your church.
- Empowers church members to serve in the community.
- Gives people of faith an opportunity to engage in construction and nonconstruction activities and be the body of Christ in the world.
- Helps build community among Christian churches.

Faith Builds Generosity Challenge

Churches and organizations are challenged to raise funds to support building a home in partnership with a local family.

Commitment of volunteerism

Church members generously volunteer their time, helping with construction—or nonconstruction—activities.

There are many ways to get involved in a Faith Builds project both on and off the construction site.

- Organize on-site volunteer days for your church members.
- Make a financial contribution.
- Organize a fundraising activity.
- Provide lunch for on-site workers.
- Create a welcome basket or other special items for the family.
- Participate at groundbreaking and dedication events.
- Form a prayer group.

Helping a family build an affordable home

When these three components of a Faith Builds come together, the result is helping a family build an affordable home of their own.
